## HOUSING—GENERAL CHARACTERISTICS

The eight urbanized areas having their central cities in Massachusetts, for which statistics are shown in tables, are depicted in the following maps. The shaded areas, in combination, comprise the urbanized areas. To assist in locating the exact external

boundaries of the areas, each boundary feature (street segment, political boundary, or other) has been assigned a number. The boundary segments thus numbered are shown on the map and the features to which they apply are presented in the following key.
